

PREMIUM JARRAH DECKING

Naturally Strong. Timeless Beauty

NATURAL DURABILITY & WOVEN STUNNING GRAIN

Sourced responsibly from the pristine, climate-resilient environments of Western Australia, LMA Timber's Premium Jarrah Decking delivers an exceptional balance of structural engineering excellence and striking organic warmth. Celebrated worldwide for its dense grain profiles and deep red-brown coloration, Jarrah represents the pinnacle of architectural timber selection.

This premium hardwood specification effortlessly upgrades luxury residential outdoor entertainment areas, high-end pool surrounds, and prominent commercial landscapes—providing timeless style and enduring asset value that matures gracefully over decades of performance.

PREMIUM HARDWOOD BUILT TO ENDURE • MADE FOR NEW ZEALAND CONDITIONS

ARCHITECTURAL PERFORMANCE MATRIX

UNMATCHED DURABILITY

An incredibly dense, stable structural timber built to withstand generation-scale wear. Possesses highly advanced natural resistances to severe weather elements, rot, decay and heavy traffic.

EXCEPTIONAL MATERIAL STABILITY

Expertly seasoned & precision-profiled to 135 x 19mm significantly minimise checking, cupping, or twisting, maintaining crisp alignment across extensive custom installations.

PREMIUM TACTILE EXPERIENCE

Meticulously milled to remain comfortably cool underfoot even during high UV exposure, offering a smooth-to-touch surface optimal for barefoot luxury around pool, BBQ and all outdoor settings.

NATURAL AGING PROFILE

A natural beauty that only deepens with age. Can be left to weather organically into a silver-grey patina, or coated regularly with premium oils to permanently anchor its rich tones.

MADE FOR MEMORIES

From defining luxury alfresco dining terraces to framing architectural poolscapes, Jarrah shifts fluidly between modern design styles. It offers specifiers a perfect bridge between clean contemporary forms and authentic, natural durability.
