AT LMA TIMBER WE SUPPLY A LARGE RANGE
OF AUSTRALIAN HARDWOOD PRODUCTS
INCLUDING CLADDING, DECKING,
STRUCTURAL BEAMS / POSTS, FLOORING,
LANDSCAPING TIMBERS, JOINERY AND MORE.

PROJECT SPOTLIGHT:

GOVERNORS BAY JETTY
SOUTH ISLAND - NZ

With an impressive history of signature projects, **LMA TIMBER** are in high demand across the commercial and residential building industry. In fact, we are the leading supplier of premium Australian reclaimed and sustainable timbers in New Zealand. A natural alternative to conventional building products, we provide the architect, designer, shop fitter and builder with a full spectrum of timber design possibilities.

Our extensive range of timber applications includes everything from structural timbers, decorative timbers, feature posts and beams to flooring, decking, cladding, panelling, battening, screens, ceilings, stair rails and treads, architectural timber joinery and specialised orders.

Hand selected by expert staff, all **LMA TIMBERS** are tested in accordance with industry standards. As a team of passionate timber enthusiasts, **LMA TIMBER** guarantees our clients receive expert advice and the delivery of quality products. You will see from the number, sheer scale and calibre of construction projects we have been involved in, why we are regarded as one of New Zealand's leading suppliers of reclaimed and sustainable timbers.

A man with grey hair, wearing a light blue button-down shirt with a 'KENNEDY'S' logo on the chest, stands in a timber yard. He has his hands on his hips and is smiling. The background is filled with stacks of timber.

“A LOVE OF TIMBER IS IN OUR BLOOD.”

LMA TIMBER have exclusive New Zealand distribution rights to KENNEDYS TIMBERS based in Brisbane and Melbourne Australia. Kennedy's are one of the most respected suppliers of hardwood timbers in Australasia thus providing us with unrivaled expertise and extensive supply of reclaimed and sustainably sourced timbers.

“Over 80 years ago my grandfather began his apprenticeship as a cabinet maker. After three generations of working with timber, you could say it’s in our blood.”

A handwritten signature in black ink, appearing to read 'Michael Kennedy', with a long horizontal line extending to the right.

MICHAEL KENNEDY
Founder and CEO

WE CONTINUE TO STRIVE TOWARDS BEING THE MOST RESPECTED SUPPLIER OF SUSTAINABLE HARDWOODS

EXTENSIVE RANGE, UNRIVALLED QUALITY

Our extensive range of timber applications include cladding, flooring, decking, feature posts and beams, stair rails and treads, bench tops, joinery timbers and specialised orders. Our timbers are recognised for their dependability, durability, versatility and commitment to the environment.

CREDIBLE AND RELIABLE

All timbers are graded according to industry guidelines. Our dedicated team of professionals, combined with state of the art equipment, generate a world class product of the highest standard that is rarely matched.

RECLAIMED ARCHITECTURAL TIMBERS

Sustainable and reclaimed Australian hardwoods are our specialty. Our timbers are a natural alternative to conventional building products, custom made to specifications all the whilst accommodating required lead times.

IN-HOUSE PRODUCTION FACILITY

All timber is milled, kiln-dried and precision profiled within our world class production facility. In fact everything is done "in-house", including our acclaimed bespoke joinery service. That is why you can be assured of a quality product and timely delivery.

SPECIFY RIGHT

A key supplier of architectural, specified, reclaimed and sustainable timbers Kennedy's are in high demand amongst architects, designers, builders and shopfitters. Our extensive range of timbers can be precision profiled to suit any design, ensuring the finished project marries the design intent .

NEW SUSTAINABLE ARCHITECTURAL TIMBERS

Extending our commitment to the environment, we have expanded our range to include sustainably sourced certified timber.

VALUABLE SOURCE OF INFORMATION

As the leading supplier of premium Australian reclaimed and sustainable new architectural timbers we are also a valuable source of information on the merits of eco timbers in construction.

MULTIPLE AWARDS

Industry acclaimed suppliers Kennedy's have been the proud recipients of countless awards recognised for both our commitment to excellence and the environment.

BESPOKE JOINERY SERVICE

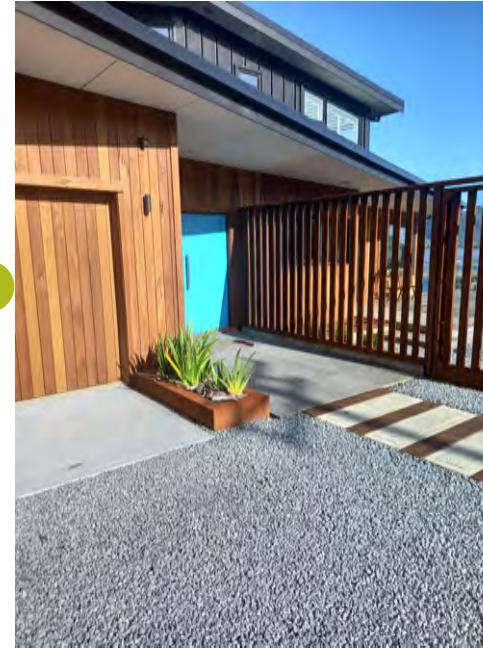

Our bespoke range of joinery products are carefully custom made in-house by our expert craftsmen.

EXTERIOR CLADDING

LMA TIMBERS EXTENSIVE RANGE OF EXTERIOR TIMBER CLADDING OPTIONS ARE SUITABLE FOR ALL NEW ZEALAND CONDITIONS.

HIGH DURABILITY TIMBERS SUCH AS SPOTTED GUM, IRONBARK, BLACKBUTT AND TALLOWWOOD PROVIDE UNIQUE AESTHETIC APPEAL AND LONG TERM SUPERIOR PERFORMANCE (CLASS 1 TIMBER, 40 YEAR PLUS SERVICE LIFE). WITH A BROAD SELECTION OF WIDTHS, THICKNESSES AND FINISHES THE DESIGN POSSIBILITIES ARE ENDLESS!

LANDSCAPE TIMBERS

WELL SEASONED HIGH DURABILITY HARDWOODS ARE PERFECTLY SUITED TO ADD WARMTH AND CHARACTER TO ANY LANDSCAPING PROJECT.

2

3

LMA TIMBERS RECLAIMED AND SUSTAINABLE ARCHITECTURAL TIMBERS ARE AN INSPIRED CHOICE FOR DESIGNING BUILDINGS WITH SENSITIVITY TO THE SURROUNDING ENVIRONMENT. ECO SUSTAINABILITY AND AN INNATE CONVERGENCE WITH THE ENVIRONMENT ARE THE KEY TO DESIGN SUCCESS WITH LANDSCAPE PROJECTS.

Beautiful rustic, reclaimed timbers can be cleverly re-purposed to create unique fences, sturdy retaining walls, eye-catching totem poles and heavy-duty garden furniture adding character and appeal to any landscape design.

SPECIALISED TIMBER FABRICATION

KENNEDY'S HIGHLY SKILLED TIMBER SPECIALISTS ARE WELL VERSED IN PROVIDING THE IDEAL TIMBER FABRICATION OPTION. FROM LAMINATED BOXED POSTS AND BEAMS THROUGH TO CUSTOM MACHINED TIMBER FEATURES FOR EITHER EXTERNAL OR INTERNAL USE, KENNEDY'S CAN PROVIDE THE PERFECT TIMBER SOLUTION.

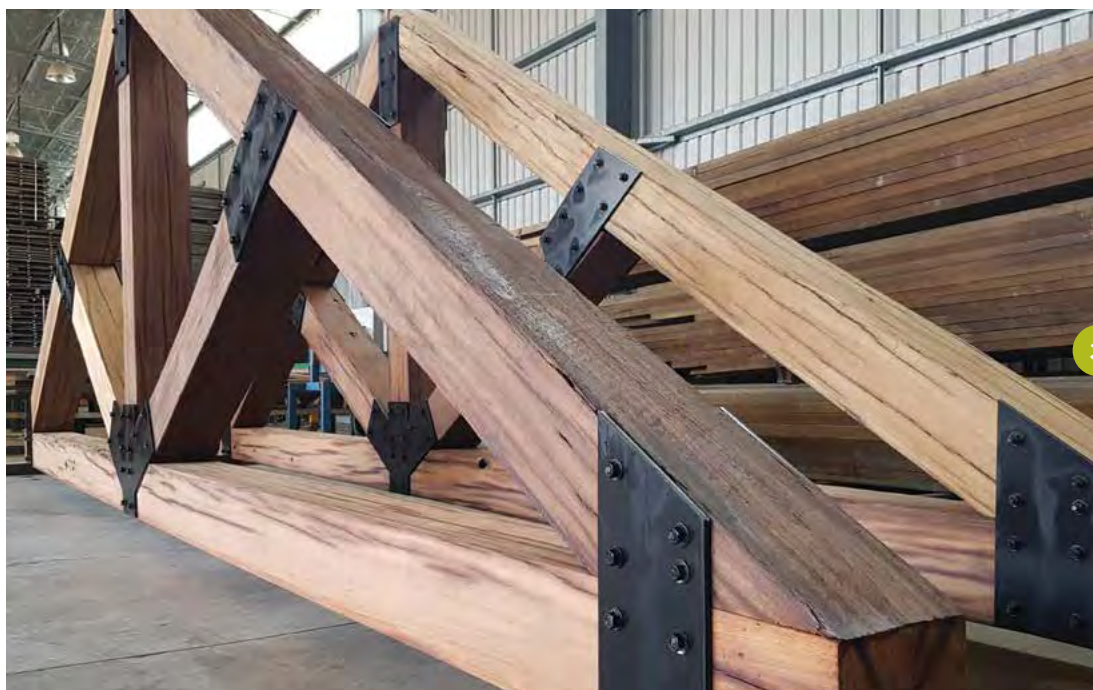

1

Scientifically tested to ensure maximum long term in situ performance, these products are substantially stronger, sturdier, and more resilient than an equivalent solid timber.

They can be manufactured using Low VOC glue and supplied with a variety of finishes. Options can include resin filled nail/bolt holes that resemble natural timber knots.

Available in fully seasoned large sizes, including premium aged recycled hardwood, they are able to span larger distances, often without the need for additional support.

THESE TIMBERS ARE SUITED TO A LARGE VARIETY OF COMMERCIAL AND RESIDENTIAL APPLICATIONS. THE TECHNOLOGY EMPLOYED IN ITS PRODUCTION RESULTS IN A PRODUCT THAT IS NOT ONLY VISUALLY APPEALING, BUT BY ITS NATURE, EXTREMELY STRONG, DURABLE, AND VERSATILE.

Some common applications, both structural and decorative include: bench and bar tops, posts and beams, seating, and stair treads.

1 SEASONED STRUCTURAL TIMBERS

THE UNIQUE PROPERTIES OF WELL SEASONED HIGH DURABILITY HARDWOOD TIMBER MAKE THE RANGE IDEALLY SUITED FOR APPLICATION WHERE BOTH HIGH STRENGTH AND DURABILITY ARE REQUIRED.

LMA TIMBERS CLASSIC AGED RANGE OF PREMIUM TIMBERS CAN BE STRENGTH GRADED TO A VARIETY OF STRUCTURAL STRENGTHS INCLUDING: F11, F14, F17, F22, F27, F34.

Well seasoned, high strength, high durability timbers can provide the perfect solution for applications where both strength and durability are important considerations.

The timber is assessed, graded and certified to the applicable Australian Standards of 2082, 2796.1 and/or 2796.2 along with the Interim industry Standards for recycled timber.

INTERIOR CLADDING

NEW ZEALANDERS HAVE LONG RELISHED AN ENDURING LOVE AFFAIR WITH TIMBER CLADDING THAT HAS SPANNED MORE THAN A CENTURY.

TIMBER CLADDING IS EXPERIENCING SOMEWHAT OF A RENAISSANCE. THERE IS NO DENYING THIS IS AN AFFAIR THAT WILL CONTINUE TO PREVAIL.

With many landmark commercial developments striving to achieve a 'green' status, in particular a Green Star rating from The Green Building Council of New Zealand, the use of timber cladding is high on the agenda to significantly enhance such developments.

Today, the decision to use timber cladding appears to be more so motivated by aesthetics and design, attributing the renewable, sustainable, and green sensation it lends to projects where applied.

Even the term 'timber cladding' has taken on a broadened definition with the increasingly creative and inspired ways it is being utilised.

With varying profiles that dictate how the cladding is installed, whether vertically, horizontally or at an angle, the choices for building and design applications are endless.

THE NATURAL CHARACTERISTICS OF TIMBER MAKE CLADDING A PERFECT PRACTICAL, BEAUTIFUL AND GREEN COMPLEMENT TO ANY PROJECT.

Timber cladding offers a unique warmth and style that simply cannot be matched by other materials.
